

7.1.1- Measures initiated by the institution for the promotion of gender equity during the year.

Equity means impartiality and justice as determined in the light of natural and nation's law. Since the college from its inception to the present day is a girls only institution with mostly female staff so the question of inequity does not arise. The students and staff, both enjoy the rights and natural powers of women in the college. Also, the college frequently invites for interaction the experts from district administration, fields of medicine, police, law, sports and self defence to enlighten the girls about the latest provisions for their betterment and empowerment and entrepreneurship. These initiatives are a regular part of routine activities in the college.
